TEMPORARY TRANSIT IS LIKE CAR RENTAL BUT BETTER

What is temporary transit?

On French vacation roads, you've probably come across vehicles with red license plates ; these are rental vehicles with "TT Transit Temporaire" registrations. This tax scheme is only available to people whose main residence is outside the European Union, and therefore first and foremost **TO EXPATRIATES and LOCAL RESIDENTS OF A COUNTRY OUTSIDE THE EUROPEAN UNION!**

Although it has been around for 60 years, this type of rental is not always well known, but those who have tried it have very often approved of it, and use it as a good recurring plan for their private stays or vacations in France and Europe.

AN ALL-INCLUSIVE EXPERIENCE

A new vehicle with 0 km, you're 1st, competitive rates and special offers, contracts from 15 to 170 days in France and Europe with unlimited mileage, etc.

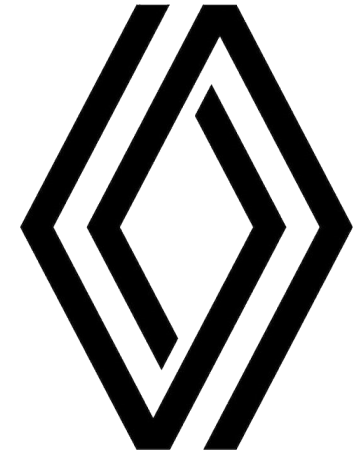

YOUR PEACE OF MIND GUARANTEED

Comprehensive insurance with no deductible, no security deposit, and no vehicle inspection upon return. A quote = final price with no hidden fees, additional charges, or administrative costs, and 24/7 free assistance.

A PREMIUM PERSONALIZED SERVICE

Personalized service from the quote to the handover of keys, flexible dates, a free second driver (spouse), and delivery and return at 22 centers in France and Europe.

For all these reasons, renting with red plates, known as "Temporary Transit," is the best alternative to vehicle rental for private stays in France and Europe.
